

ASN's experts work with customer's NOC and/or O&M staff to **reduce repair time** and restore traffic by coordinating between **technical expert**, Marine Maintenance Authority & Customers' staff

Customers Benefits

- **Fully integrated** with Marine Maintenance solutions
- ASN provide **continuous support** from the time a wet plant fault has been identified
- NOC personnel build a **trusted relationship** with ASN during complex operations
- ASN working with the NOC helps to **minimize the repair time** and therefore bring the system back into service quicker

Marine Repair Coordination
